Lifting Electromagnet Model Series MW12 for Handling Bundled Bar Materials

Applications:

This product series is designed as strong permeable magnetic circuit which can penetrate several layers of airspace; suitable for lifting and transferring bundled bar materials as well as heavy duty steel ingots or steel moulds.

Main technical data

DC-220V, TD-60%

Model	overall dimension (mm)							Mass (kg)	current (A)	power (kw)	Examples for lifting capacity four units				
	A	B	C	D	E	F	G				(mm) Bar material Diameter	(mm) Single bundle diameter	(mm) Length	(T) Weight per bundle	Bundle amount for lifting
